Dear Love,

On our first date, I imagined spending my whole life with you. You are the angel of my heart whom I met at Hell's Kitchen. Every time you smile I feel cupid arrows pass right through my heart.

You are the most beautiful woman in the world. Your innocence melts my heart. I cherish all the time I spent with you praying, traveling and dating. I dream a life full of you in it. I wish to explore all of the wonderful life with you. I feel excited to share special, sweet and everyday moments of life with you.

I am committed forever towards you my love. I hope and pray that my actions will always please you and make you smile and happy. You are my precious princess and the queen of my heart.

My love for you is endless and always growing. I love you so much, sweetheart.

Xoxo,

Dominic Tippabattuni
